MEMORANDUM

TO: **Kevin Donahue**
City Administrator

Deputy Mayors

THROUGH: **Glen Lee**
Chief Financial Officer

FROM: **Eric Cannady**
Deputy Chief Financial Officer

DATE: **June 6, 2025**

SUBJECT: **FY 2025 Capital Expenditures: Second Quarter**

I am pleased to provide you with the District's capital expenditure report for the second quarter of FY 2025. This report includes FY 2025 capital expenditures through the second quarter year-to-date (YTD) as well as obligations as of March 31, 2025.

Results from the Second quarter of FY 2025

As of March 31, 2025, District agencies had spent $927.7 million on capital projects through the second quarter of FY 2025.

The $927.7 million of expenditures is attributable to different GAAP funds and funding sources as follows:

(a) $917.0[1] million in the General Capital Improvements Fund:
- $619.0 million from General Obligation (G.O.), Income Tax (I.T.), GARVEE, and Short-Term Secured Bonds;
- $94.6 million from Federal Grants (primarily the Highway Trust Fund);
- $202.4 million from Pay-as-you-go (Paygo) capital;
- $0.8 million from the Local Transportation Fund; and
- $0.2 million from Federal Payments.

(b) $10.7 million in the local Highway Trust Fund.

This report includes several tables displaying FY 2025 capital expenditures by GAAP fund and agency, through March 31, 2025:
- Table B-1 displays a crosswalk of expenditure data between implementer and owner agency, where those agencies differ, for all sources of funds.
- Table B-2 displays second quarter FY 2025 YTD capital expenditures by implementer agency and source of funds with a comparison to the same data for FY 2024 (YTD through March 31, 2024).

FY 2025 YTD capital expenditures through March 31, 2025, by appropriated fund are as follows:

(a) $822.2 million from Local funds
(b) $94.6 million from Federal Grants;
(c) $10.7 million in Highway Trust funds; and
(d) $0.2 million in Federal Payments

Tables C, D, E, F, G, H and I of this report display FY 2025 second quarter YTD capital expenditures by each appropriated fund and agency, and by project. The projects are grouped by owner agency in these tables.

Discussions of implementer and owner agencies and of the capital fund structure—comparing the GAAP fund and appropriated fund groupings—are provided in the "Additional Notes on the Data" section below.

Second Quarter FY 2025 YTD Compared to Second Quarter FY 2024 YTD

Total capital expenditures through the second quarter of FY 2025 were $927.7 million, which is $159.6 million higher than expenditures of $768.1 million in the same period of FY 2024. Capital expenditures from G.O. / I.T., Garvee bonds through the second quarter of FY 2025 were $619.0 million, or $144.6 million higher than the same category total through the second quarter of FY 2024. This increase was primarily due to higher bond-backed contributions to the capital programs of the Office of the Deputy Mayor for Planning and

[1] Details in bullets/tables may not add up to totals due to rounding.

Economic Development, the Office of the Chief Financial Officer, and the Department of General Services.

Paygo capital expenditures of $202.4 million through the second quarter of FY 2025 were $23.3 million higher than the same category total through the second quarter of FY 2024, primarily due to higher Paygo contributions to the Office of the Deputy Mayor for Planning and Economic Development capital program partially offset by decreased Paygo contributions to the Department of Transportation capital program.

Second quarter YTD FY 2025 expenditures from the Local Transportation Fund on local streets, curbs and sidewalk rehabilitation projects totaled $0.8 million, which was $7.2 million lower than the same category total through the second quarter of FY 2024 primarily due to reduced Local Transportation Fund spending by the Department of Transportation.

Expenditures from Federal Grants were $94.6 million, or $20.3 million higher compared to the second quarter of FY 2024, due to increased spending by DDOT (on federal highway trust fund projects), the Department of Health Care Finance and the District of Columbia Public Library.

Table B-2 includes a comparison of the second quarter year-to-date totals, by implementer agency and GAAP fund, for FY 2025 and for FY 2024.

Status of District-Wide Obligations

As of March 31, 2025, District agencies had a balance of obligations (open encumbrances) of $2,129.0 million for capital projects. An additional $461.7 million was pre-encumbered, indicating intent to spend but not an actual obligation.

Encumbrances in this report may have been entered into in FY 2025 or earlier as encumbrances for capital projects can cross fiscal years. Some encumbrances will be converted to expenditures later in FY 2025, but others might remain until FY 2026 or beyond. Whereas in the operating budget, expenditures and encumbrances can be totaled to measure obligations against the current year's budget, in the capital budget some encumbrances might be planned for future years. Furthermore, agencies can obligate against lifetime budget authority, although they can only spend against allotments received to date. In other words, agencies can have obligations in excess of life-to-date allotments but not exceeding a capital project's lifetime budget.

Project-level details (budgets, expenditures, and obligations) through March 31, 2025, for capital projects at the appropriated fund level—that is, funded by local, revenue bond, private contributions, federal grant, federal payment funds, highway trust funds and intra-district capital funds—are provided in tables C, D, E, F, G, H and I respectively.

Analysis of FY 2024 Expenditures and Capital Fund Balance

The FY 2024 Annual Comprehensive Financial Report (ACFR) reflected a net deficit in the General Capital Improvements Fund ("the Fund") of $980.4 million. This represents a net fund balance decrease of $668.9 million from the FY 2023 ending fund balance deficit of $311.5 million. The net deficit was due to the difference in timing of revenues and expenditures in the Fund.

In FY 2025, the District's management continues to focus on maintaining a balance between the timing of borrowing and the ongoing expenditures of active capital projects. FY 2025 capital expenditures will be managed against an expected $3,070.0 million of revenue in FY 2025, which is comprised of approximately:

- $2.0 billion of G.O. and I.T. Secured Revenue Bond borrowing for new and ongoing projects;
- $367.2 million in taxable bonds;
- $228.4 million of planned Paygo capital budget transfers;
- $14.0 million of Local Transportation funding;
- $41.0 million of Local (match) Highway Trust funding; and,
- $376.0 million of federal grant funding (primarily Highway Trust Fund).

Because of the narrow margin between spending on projects financed by G.O. bonds, I.T. secured revenue bonds, and Paygo and the corresponding revenues in recent years, the District must closely monitor spending in FY 2025 to ensure that it is actively managed compared to revenues, while maintaining a planned capital fund balance in the long term. As a result, the timing of future borrowings will be closely managed as well.

Notes on the Data

Implementer Agency and Owner Agency

Each capital project in the District has an implementer and an owner agency. For many projects, the implementer and owner are the same, but for some projects they differ. A few agencies—primarily the Department of General Services (DGS) and the Office of the Chief Technology Officer (OCTO)—implement projects on behalf of multiple owner agencies.

Data in DIFS are related to each project's implementer agency, but budget decisions on capital projects are generally made with input from each project's owner agency.

Table B-1 presents a crosswalk of the expenditure data between implementer and owner agencies. As mentioned earlier, the project-level data in tables C, D, E, F, G, H, and I are grouped by owner agency.

Capital Fund Structure

Capital data are reported in two primary ways in this report: by *GAAP fund* and by *appropriated fund*.

GAAP (Generally Accepted Accounting Principles) Fund is the reporting unit for the District of Columbia's Annual Comprehensive Financial Report (ACFR). The District reports capital activity in two GAAP funds in the Annual Report: (a) the General Capital Improvements Fund, and (b) the Highway Trust Fund.

(a) The General Capital Improvements Fund includes activity from a wide variety of funding sources:
- G.O. bonds and I.T. Secured Revenue bonds (including Bond Anticipation Notes (BANs) and Commercial Paper (CP));
- Short-Term bonds;
- GARVEE bonds;
- Certain other revenue bonds;
- Paygo capital, which represents transfers from the General Fund (operating budget);
- Sales of Assets;
- Local Transportation Fund;
- Federal Grants, primarily Highway Trust Fund;
- Federal Payments (direct federal appropriations); and
- Private Contributions.

(b) The Highway Trust Fund reports only the local match for Highway Trust Fund expenditures. Revenues for this fund come primarily from the District's motor fuel tax.

Table B-2 of this report displays data by GAAP fund.

Appropriated Fund is a different way of grouping capital data and is similar to how operating budget data is reported. The District reports seven appropriated funds for capital: (a) Local funds, (b) Revenue Bond funds, (c) Private Contribution funds, (d) Federal Grant funds, (e) Federal Payment funds, (f) Highway Trust Funds. Additionally for transparency, this report shows (g) Intra-District funds that have been carried over to DIFS from the legacy accounting system of SOAR. The figures provided in the intra-District funds report should not be counted towards the appropriated funds total.

(a) Local funds include activity from all local funding sources except Revenue Bonds. This includes:
- G.O. bonds, I.T. bonds, Short-Term, and GARVEE bonds (including BANs);
- Paygo capital, which represents transfers from the General Fund (the operating budget); and
- Local Transportation Fund.

(b) Revenue Bond funds relate to (i) borrowing against the financial settlement with tobacco producers, (ii) securitization of Housing Production Trust Fund revenues, and (iii) Payment in Lieu of Taxes (PILOT) from the developer of the headquarters site for the U.S. Department of Transportation, which are financed through special revenue bond offerings.

(c) Private Contribution funds include contributions from private entities for the District's capital purposes.

(d) Federal Grant funds include federal grants received by District agencies. Virtually all the capital federal grant funds received by the District are for the Highway Trust Fund.

(e) Federal Payment funds represent direct appropriations to District agencies for capital projects.

(f) Highway Trust funds represent the local match for highway trust fund expenditures, from the District's motor fuel tax and other sources.

(g) Intra-District Capital funds represent projects where the implementer and owner agency are not the same.

Tables C, D, E, F, G, and H of this report display project-level data by appropriated fund: local funds, revenue bond funds, private contribution funds, federal grant funds, federal payment funds and, highway trust funds respectively.

Table I (Intra-District Capital Funds) reflects intra-District advances associated with capital projects that were not converted when the District transitioned from SOAR to DIFS. The budgets and commitments associated with these projects is being captured in owning agency's financial reports. As these advances are spent down (or projects expire), they will no longer be reported.

The primary differences between the GAAP fund and appropriated fund groupings involve (1) federal funds, (2) revenue bonds, and (3) the local Highway Trust Fund. The General Capital Improvements GAAP fund includes most elements of the Local funds appropriated fund, but it also includes Federal Grants, Federal Payments, and Revenue Bonds, while it excludes the local Highway Trust Fund.

Additional Notes on the Data

Data for the tables in this report were generated April 24, 2025. Any differences between these data and DIFS, the District's system of record, are due to accounting events that may have been recorded in the system subsequent to the report run dates. This report is prepared on a "fiscal year" basis, similar to the District's Annual Comprehensive Financial Report (ACFR).

This report includes only projects with expenditures during FY 2025 or encumbrances, pre-encumbrances, or intra-District advances outstanding as of March 31, 2025. For this reason, the "expenditure balance remaining" total reported in tabs C, D, E, F, G, H and I is lower than the total of all remaining allotments in DIFS, to the extent that some projects with a remaining allotment balance in DIFS have no FY 2025 activity to date.

The columns of tables C, D, E, F, G, H and I are defined in this report as follows:

Lifetime Authority is budget authority for a project's lifetime. Agencies may obligate up to the full amount of a project's lifetime budget.

Lifetime Allotments are the portion of a project's lifetime budget that has been allotted to date for expenditure. This figure should be less than or equal to lifetime budget, and expenditures should be less than or equal to life-to-date allotments.

Expenditures through FY 2024 are cumulative expenditures for the project before the current fiscal year.

FY 2025 Expenditures are expenditures through the reporting period in the current year, FY 2025.

Encumbrances are open obligations to spend (for instance, reflecting the amounts of signed contracts where the expenditure has not yet been made). This column includes all open encumbrances, whether entered in FY 2025 or in an earlier year.

Pre-encumbrances represent plans to spend but are not obligations. For example, to solicit bids for implementation of a capital project, an agency must first pre-encumber the estimated cost for the improvement, and next convert this to an encumbrance (obligation) once a contract is signed with the selected vendor.

Total Expenditure, Encumbrance and Pre-Encumbrance is the total of the FY 2025 Expenditure plus Encumbrances plus Pre-Encumbrances columns.

Authority Balance is the difference between (a) lifetime authority and (b) expenditures plus encumbrances, pre-encumbrances and intra-District advances.

Allotment Balance is the difference between (a) lifetime allotments and (b) total expenditures (that is, expenditures through the second quarter of FY 2025) plus encumbrances and intra-District advances.

If you have any questions about this report, please contact Samuel Terry, Director, Financial Planning, Analysis, and Management Services, Office of Budget and Planning, at 202-724-7477.
