District Direct Improvements P2

END USER DOCUMENTATION – January 14, 2024

Release Overview

RELEASE NAME	**FY2024R0114 – District Direct Improvements P2**
RELEASE DATE	January 14, 2024
INITIATIVE	Usability
OVERVIEW	Improvements are made to the District Direct Resident Portal and Mobile App to support the online and mobile app before the application harmonization project goes live. These improvements can include accessibility language, integration with the caseworker portal, and other enhancements.
BENEFITS	Users will see the following: • Release will include new requirements for Resident Portal and Mobile App • Release will include repairs to all stuck threads and error notifications
WHO'S IMPACTED?	• Internal Stakeholders • Caseworkers and Beneficiaries
HOW ARE USERS IMPACTED?	Caseworkers and other users will enjoy smoother DD resident and Mobile app processing and eligibility determination.

District Direct Improvements Phase 2

KEY BUSINESS ISSUE: DD IMPROVEMENTS

Jira Ticket	Issue	Fix
DSMRA-1458	DCAS needs to support the new requirement to introduce My Profile Functionality to District Direct (Resident Portal and Mobile App).	An Improvement was made to update the User Profile functionality in District Direct (Resident Portal and Mobile App).
DSMRA-1460	DCAS needs to support the new requirement to allow the beneficiary to terminate Medical coverage online via the Resident Portal.	An Improvement was made to the Resident Portal to launch the new IEG which will allow Medical termination.
DSMRA-1455	DCAS needs to support the new requirement to allow the beneficiary to terminate Medical coverage online via Mobile App.	An Improvement was made to the Mobile App to launch the new IEG which will allow Medical termination.
DSMRA-1463	In DCAS, the District Direct Application Intake Summary page is missing Breast and Cervical Cancer Information.	An Improvement was made to add the Breast and Cervical Cancer Information section in the summary page.
DSMRA-1462	In DCAS there needs to be Medical Coverage Termination Report for clients requesting to discontinue Medical or Medicaid benefit.	An Improvement was made to provide a Medical Coverage Termination Report for clients requesting to discontinue Medical or Medicaid benefit.
DSMRA-1456	DCAS must address a new requirement by updating the Medical Application (MAGI) flow to ask every household member whether they are requesting assistance in the Resident Portal.	An Improvement was made to meet the new requirement by making changes to the IEG Script in the MAGI Medical Application to allow every household member, whether they are requesting assistance in the Resident Portal. Also, changes were made in the Non-MAGI pre-population class to update the primary participant details.
DSMRA-1642	DCAS must address a new requirement by updating the Medical Application (MAGI) Flow to ask every Household member whether they are requesting assistance in the Mobile App.	An Improvement was made to meet the new requirement by making changes to the IEG Script in the MAGI Medical Application to allow every household member, whether they are requesting assistance in the Mobile App. Also, changes were made in the Non-MAGI pre-population class to update the primary participant details.

District Direct Improvements Phase 2

KEY BUSINESS ISSUE: DD IMPROVEMENTS

Jira Ticket	Issue	Fix
DSMRA-1261	In DCAS, users cannot proceed after the general information screen during non-MAGI renewals because program conditions on the checkbox questions are missing.	An Improvement was made to add conditions to the checkbox questions so the user can proceed after the general information screen.
DSMRA-1459	In DCAS, there is a new requirement to add the SNAP Replacement Allotment Request form to District Direct.	An Improvement was made to implement this requirement of adding the SNAP Replacement Allotment Request form to District Direct.
DSMRA-1644	In DCAS, mailing address details are not displayed in the PDF due to a code issue.	A Code update was made to ensure the mailing address is displayed in the PDF.
DSMRA-1645	In DCAS, users cannot proceed when changing from homeless to non-homeless in MAGI CoC/Renewals due to validation errors in the apt/suite field not allowing for special characters.	An Improvement was made to change the validation condition in the apt/suite field to allow special characters when changing from homeless to non-homeless in MAGI CoC/Renewals.
DSMRA-1646	In DCAS, users were incorrectly able to add income for the removed household members due to an issue in the Intelligent Evidence Gathering (IEG) script.	An Improvement was made to resolve the issue in IEG script and prevent users from adding income to members removed from the household.
DSMRA-1647	In DCAS for SNAP/Cash Initial Application PDF, the Residential address is missing for the Household after performing an edit from Final Summary Screen in the Income Support Application.	An Improvement was made ensure the residential address is present for the household after performing edit from the Final Summary screen in the Income Support Application.
DSMRA-2109	Per policy, DCAS needs to create French and Simplified Chinese versions of the SNAP Replacement Allotment Request Form.	An Improvement was made to add French and Simplified Chinese versions of the SNAP Replacement Allotment Form.
DSMRA-2691	In DCAS, when a PDC case closure process is initiated from District Direct, Notice #358 Terminate Medical Coverage should be triggered for the user.	An Improvement was made as a new requirement to trigger Notice #358 Terminate Medical Coverage when the PDC case closure process is initiated.

District Direct Improvements Phase 2

KEY BUSINESS ISSUE: DD IMPROVEMENTS

Jira Ticket	Issue	Fix
DSMRA-2705	In DCAS, there was an error code when submitting Supplemental Form 20.	An Improvement was made to ensure there will be no error code when submitting Supplemental Form 20.
DSMRA-2177	DCAS must incorporate the Voter Registration link into District Direct Resident Portal as part of a new requirement.	An Improvement was made to add the Voter Registration link to the District Direct Resident portal as part of a new requirement.
DSMRA-2736	DCAS must incorporate the Voter Registration Link into the District Direct Mobile Appl as part of a new requirement.	An Improvement was made to add the Voter Registration link to the District Direct Mobile App as part of a new requirement.
DSMRA-2853	In District Direct, during the withdrawal process, DCAS needs to change the task type from “Application” to “Change.”	An Improvement was made in the withdrawal process to change the task type from “Application” to “Change”.
DSMRA-2915	In District Direct Resident Portal during a MAGI renewal, an incorrect validation message is displayed, and user was unable to proceed after navigating to the pregnancy details screen.	An Improvement was made to correct the issue and allow the user to proceed to the next screen.
DSMRA-3523	In DCAS, customers who want to voluntarily end their Medical/Medicaid Benefits and wave Adverse Action should also have the same case end date in MMIS.	An Improvement was made to allow customers to voluntarily end their Medical/Medicaid Benefits and wave Adverse Action to have the same case end date in MMIS.
DSMRA-2177	To comply with the policy, the Resident Portal and Mobile App must incorporate a link to access voter registration information.	An Improvement was made to add the Voter Registration information link to the Resident Portal and Mobile App.
DSMRA-1194	In DCAS, the ability to decline the Medicaid coverage option was not visible on IEG for potential DCA/ICP eligible clients in the Mobile App.	An Improvement was added to allow the option to decline Medicaid coverage on the IEG script for potential DCA/ICP eligible clients in the Mobile App.
DSMRA-2891 **DSMRA-3674**	DCAS needs to translate text into Spanish, Amharic, French, and Simplified Chinese.	An improvement was made to translate text into Spanish, Amharic, French, and Simplified Chinese.
